The Sawgrass brings timeless style together with modern comfort across 2,455 square feet. The first-floor primary suite offers a peaceful retreat with an elegant ensuite and generous closet space. An open layout with hardwood floors connects bright, spacious living areas to a chef-inspired kitchen with a large island — the perfect gathering spot for guests or family. A graceful staircase makes a striking statement and leads to a loft that adds versatility and character to the home's design. Thoughtful details and designer finishes create a warm, welcoming feel throughout. Visit our award-winning Design Center to choose the finishes, fixtures, and touches

## The Sawgrass

that reflect your personal style. Like all of our Zero Energy homes, the Sawgrass is built with innovative materials and technology that support comfort, energy efficiency, and a healthier way of living.
