Windsor Place — An exclusive community of just 44 new townhomes in Milford, Windsor Place offers a maintenance-free, lock-and-leave lifestyle minutes from downtown Milford, I-95, the Merritt Parkway and the shoreline beaches of Woodmont, Gulf Beach and Silver Sands State Park.

Each three-story townhome offers approximately 1,200 square feet with two bedrooms and 1.5 baths. The ground level features an attached garage, in-unit laundry, dedicated storage and EV-charging capability. The main level is an open-concept kitchen and living area filled with natural light, opening to a private deck,

with a convenient powder room. Upstairs, two generously sized bedrooms share a full bath.

Interiors are designed by Meredith Huck of House of Huck, with three curated kitchen and bath styles, Saylor, Rowan and Arden, and buyers can personalize

their finishes before completion.

Anastasia Homes has spent more than a decade building custom homes along the Connecticut shoreline. Windsor Place brings that same craftsmanship, energy-efficient construction and attention to detail to every residence, at scale.
